Phone: 281-992-2006 FAX: 281-992-2040

Layer picking clamp... eliminates manual case picking, automates load assembly, layer by layer. Can handle multiple layers and can place singles or multiple layers on the shipping pallet.

The efficient way to build "***Rainbow Pallets***" to satisfy the buyers' orders.

- ***Fork Mounted for quick, simple installation and great load visibility.***
- ***Four sided clamping handles nearly any type of case or package without over-squeeze or damage.***
- ***Fork mount allows slewing and self-alignment to the loads.***
- ***Uses sideshifter on the truck carriage.***
- ***Requires one additional truck hydraulic valve.***
- ***Picture frame arms allow great operator visibility and control.***
- ***Rubberized contact pads move parallel to the floor plane.***
- ***Break-down of single SKU load onto multiple pallets in seconds.***
- ***Optional rotation: 10 degrees or 100 degrees.***
