

ULH Rotating Concrete Pipe Clamp

ISO 9001 Certified

- Standard models available up to 40,000 Lb. Capacity and 148" Outside Pipe Diameter.
- Split Arm Design with hydraulically pivoting long arms and fixed short arm.
- Special Design Contact Pads for reduced product damage and increased gripping power.
- Unique dual articulating pad design for improved pad contact over wider range of pipe diameters.

- Highest strength to weight ratio for longer life cycle and improved serviceability.
- Optimum weight, lost load (AET), and center of gravity (HCG) for maximum net truck capacity.
- 360 Degree Continuous Rotation standard. Non-rotating and 90 degree forward tipping models available on request.
- ITA Class IV Mounting available for truck capacities of 15,500 lb. or less. Integral Carriage Mounting and Pin Type Brackets available on request. Truck carriage drawings will be required at time of order.
- Contact *Unit Load Handling Systems* for models, pricing, and complete attachment specifications.
